2024**

Dear Standards Management Users

Please note:

1. Information on specific collections:

Formatvorlage Standard The following information does not apply to the collections AFNOR, BSI, PKN, SABS, SIS and TSE. Your data is supplied directly by the publishers and is fed into Nautos after a formal check by DIN Software GmbH.

The following collections have not been updated (the issue which was last updated is shown in parentheses):

GOST (2022-02)
PKN (2022-02)

An unusual number of changes:

Because Beuth Verlag changed its name to DIN Media GmbH on 22.04.2024 (latest news here: <https://www.dinmedia.de/en/dinmedia/beuthverlag-will-become-dinmedia>) and the associated changes made to the address entries in the DITR database, the current monthly production includes an unusually large number of changes.

Advance notice UIC:

We will be making a correction to the UIC rules with documents of the International Union of Railways (French: Union Internationale des Chemins de fer). The edition numbers of the standards, which are currently listed in the REVISION field, will be stored in the EDITION field provided for this purpose in future. Almost 1,800 updates are therefore anticipated in the coming monthly production 2024-07.

DIN collection — Changing the issuing body (PU)

With the rebranding of Beuth to DIN Media, entries and hyperlinks in the data field “Available from” have also been changed. A total of 258,000 changes have been made to current and historic DIN collection records.

These changes are not indicated via the Update field; the status of the data has not been changed.

2. The following document identifiers have been changed:

AC-CODE	DOC. IDENTIFIER NEW	DOC. IDENTIFIER OLD	PUB. DATE
CA87857515	CSA C22.2 No. 60601-2-37	CAN/CSA-C22.2 No. 60601-2-37-08	2008-12-01
